

# Exclusive HydroWise Thermal Shield Technology!

Hydropool Hot Tubs are engineered to be the most energy efficient hot tub in the world, providing 100°F / 37°C for pennies a day.

### Did you know...

N.A.S.A. uses the same technology to protect its astronauts from the -273 degree cold in outer space that we use on our thermal shield blankets

### Designed To Exceed CEC Regulations

We have always been developing new ways to better our energy efficiency...

- 1980 Engineered the first Self-Cleaning System for better energy efficiency.
- 1981 Spray foam insulation on shell to improve energy efficiency.
- 1990 First use of Full Foam Insulation.
- 1996 Changed to perimeter heat lock.
- 2000 Perimeter heat lock to HydroWise Double Thermal Shield System.
- 2005 Introduction of Eco Heat Exchange technology.
- 2008 Launch of Evergreen Carbon Neutral Program.
- 2010 Introduction of Evergreen Pump and black pipe technology.
